

Mohd Ansar Bux

Java Full Stack Developer

Dedicated and efficient Full Stack Developer for creating a complete and Responsive Web-Application. Certified in Java Full Stack technology. Seeking a full-time position related to Full Stack Developer or Java Developer. I want to work in a place that will improve my skill and enhance my knowledge.

Projects

Hotel Management System (Guest Guru)

Java, Spring boot, MySQL, Angular CLI, HTML, CSS & Bootstrap

My Role: I served as both a team leader and a full-stack developer in our project.

Description: As a full-stack developer, I played a pivotal role in the development of the Hotel Management System (Guest Guru), utilizing Java, Spring Boot, MySQL, Angular, HTML, CSS, and Bootstrap. My responsibilities encompassed coding, debugging, feature optimization, and ensuring data integrity, resulting in a user-friendly interface. In addition to my technical contributions, I also assumed the role of team leader, effectively managing project tasks, coordinating team efforts, and ensuring timely project completion. This dual role allowed me to bridge technical expertise with efficient project management and teamwork. For a closer look at my projects and my proficiency in full-stack web development, please visit my Hotel Management System (Guest Guru) website.

Portfolio Website

HTML, CSS and JavaScript

Description: Developed using HTML, CSS, and JavaScript, my portfolio website showcases my proficiency in front-end web development. The website demonstrates my ability to create visually appealing and responsive user interfaces using HTML for structure, CSS for styling, and JavaScript for interactivity. Visit my portfolio website to explore my projects and witness my expertise in front-end web development.

Online Banking Application

Java, JDBC, MySQL

Description: I am proud to present my comprehensive and meticulously crafted Online Banking Application, a console-based software solution that showcases my proficiency in Java, Object-Oriented Programming (OOP) concepts, JDBC (Java Database Connectivity), and MySQL database management. This project demonstrates my ability to develop robust, secure, and user-friendly applications that are essential in the modern banking sector.

Training & Internship

EduBridge Learning Pvt. Ltd.

Digital Academy - Certification Program in Java Full Stack

Completed a comprehensive 3-month training and internship program at EduBridge Learning Pvt. Ltd. I acquired a strong foundation in Java programming, including advanced concepts. This immersive program also exposed me to modern web development technologies, including Hibernate, Spring and Spring Boot frameworks. Additionally, I developed proficiency in front-end technologies like HTML, CSS, JavaScript, Angular and Bootstrap, enhancing my ability to create dynamic and responsive user interfaces.

Education
